#### Effective June 1, 2015

Prior to submitting an application for an Occupational Tax License within the City of Woodstock, please contact the Planning & Zoning department for zoning approval for your business type. A Business Registration Safety Inspection will be required prior to the issuance of the business license. This inspection will center on the correction of any immediate safety issues within the business space and will be conducted by both the Building and Fire Department.

Some things that will be included in these inspections will be checking for ADA compliance in accordance with the ADA Standards and 120-3-20 Georgia Law (ie: grab bars, signage, accessible mobility throughout the space), as well as any noticeable violations resulting from changes or modifications to the space or building since the original CO was issued that would constitute a safety hazard or concern for the occupants of the building and general public. The fire department will also be checking for any life safety issues and fire hazards within the space, which could include fire extinguishers, fire exits, or signage for example.

## Please read and initial the following steps for application:

#### Step 1

\_\_\_\_\_Provide to Development Services a completed application including a non-refundable \$55.00 admin and inspection fee. This fee will cover the initial inspection and a follow-up if needed. Should more than 2 inspections be needed, the business may be subject to an additional \$25.00 re-inspection fee. The application will include all necessary documentation for your business. The application will be reviewed by our planning and zoning department to insure your intended business is in conformance with the zoning regulations for the City of Woodstock.

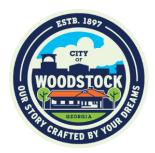

#### Step 2

Once the zoning department has issued approval, you will be contacted by someone from our Development Services Department to schedule the necessary safety inspections on the business address. You will need to make sure that someone will be available to allow access to the location so the inspections can be completed. These inspections will be held on Tuesday mornings or Thursday afternoons. Failure to make the space available will delay the issuing of the license. In the event that there are violations, it will be the applicant's responsibility to correct these and notify the Development Services Department so a second inspection can be scheduled.

### Step 3

Once the application has all necessary inspections and approvals we will be able to issue your Occupational Tax License. The final documentation that will be required will be an executed lease or purchase agreement. We will also request the occupation tax payment.

# \*\*\*\* Existing Building Change of Occupancy requires a new Certificate of Occupancy \*\*\*\*

As stated in Section 18-64, if any occupancy classification or zoning of any existing building or structure is changed, the building, plumbing, electrical, gas, and mechanical systems shall be made to conform to the intent of the construction codes as required by the Building Official.

A certificate of occupancy for any building may be obtained by applying to the building department and supplying the information and data necessary to determine compliance with the construction codes for the occupancy intended. Where necessary in the opinion of the Building Official, two sets of detailed drawings, a general inspection, or both may be required. When upon examination and inspection it is found that the building conforms to the provisions of the construction codes and other applicable laws and ordinances for such occupancy, a certificate of occupancy shall be issued.

Please contact the City of Woodstock's Building Department at **770-592-6036** if you have any questions or concerns about applying for a building permit and obtaining a certificate of occupancy (CO).
